DETAILED ACTION

1. Applicant's amendment to claims 11 and 13 overcomes the 101 rejection. As currently defined, the method is tied to a particular machine because implicit in the method is a data storage device performing the recited steps.
2. Claims 1, 2, 6-11, 13 and 16-21 are allowed.
3. The following is an examiner's statement of reasons for allowance: As outlined in the non-final rejection mailed on 4/28/09 (see paragraph 3), the prior art does not disclose outputting the electronic data, a second electronic signature created by encrypting the electronic data with a second key which is valid at output time and the electronic signature for registration when the compared results is favorable. For these reasons, the claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
